**Contemporary Logistics (7th Edition)** James C. Johnson, Donald F. Wood, Daniel Wardlow, Paul R. Murphy

Using real-world case studies throughout, this exploration of *contemporary* logistics describes the entire supply channel system -- from inbound movement of freight through materials management to physical distribution to customers. Highlights topics that affect logistics *channels management* -- including customer service, packaging, inventory management, traffic management, and creating "value-added" linkages in the supply chain. Considers both domestic and international logistics. Explains how to analyze, design, and implement a logistics system -- including logistics systems controls and reengineering logistics systems. Integrates cases based on real-world examples throughout to illustrate the nature of logistics and the problems faced in daily operations. For anyone involved in logistics, physical distribution, or materials management.
