The Toronto Protocol: the real Plan of the Global Elite? Brian Nugent

This short but explosive text was first leaked by Serge Monast in Canada in 1995. It is reported to be the plan of an elite group who are manipulating the general public and governments across the world to bring about their long term goal of a world government. They cover in this document a wide variety of areas, including world food supplies and pollution, the question of parental rights as opposed to state rights over children, earthquake weapons, the overall media and economic climate which was planned to be favourable in order to lure into complacency the general public, etc etc. Could it be for real? You decide!
