*“Political intrigue, neuroscience, a missing-persons investigation – this well-written novel has it all.” -  
Carrie Rubin, author of The Seneca Scourge*

**One crime, four people and a secret that could shake the world to its foundations.**

Four lives become linked by a student's disappearance: a politician looking to put integrity back into politics, an investigator hoping to atone for past mistakes, a data cleanser searching for a better life while haunted by his past and a re-life technician creating new lives for old souls.

But it soon becomes clear this is no ordinary case, and in the pursuit of the truth, long-held secrets are at risk of being revealed.

Set in the near future where everybody is connected and death isn't final, this is the story of how far those in power will go to retain control, and the true price to pay for a Second Chance.
