The Misunderstood Child: A Guide for Parents of Children With Learning Disabilities Larry B. Silver
Children with learning disabilities are often of above-average intelligence, but they are still affected by emotional problems, hyperactivity, dyslexia and other difficulties attributed to biochemical imbalances in the brain or a dysfunctional family life. This book is a practical guide for parents who want to help and understand their learning-disabled child. The book discusses positive treatment strategies that can be implemented at home and school to help these children. This second edition includes expanded information on substance abuse, suicide and delinquency, revisions to laws governing discrimination and educational opportunities for the gifted learning-disabled child. Also included is a list of resources and organizations that can help in treating the learning-disabled child.
