## **TechnoRage: Poems** William Olsen

William Olsen's *TechnoRage* is a meditative ode to nature. Its intensely lyrical poems remind us of our humanity, spinning free-ranging poetic conversations that question the ways of the world. In the age of the wide but often shallow lens of our new technology, Olsen takes a nod from Robert Frost and Gary Snyder, laying bare our need to return to the roots of things, where these poems find their voice. Olsen revels in language that is an intensely authentic rumination on our human isolation.
