For everyone who ever drove one, crammed into one, or plays Punch Buggy when one drives by, here comes The Volkswagen Bug Book. The Bug Book is a high-design trip back to when Beetles filled the highways, Flower Children roamed the streets, and Love and Bug were forever linked. Author Dan Ouellette combed the archives of the official Volkswagen museum in Wolfsburg, Germany, for the best historical photos. Back home, Ouellette collected photographs of the most remarkable vintage VWs in the country as well as some less than pristine but nevertheless lovable models. The Bug Book is filled with personal anecdotes, detailed history and little known facts about the German car that zoomed into America's heart.
