Logistics of a Distribution System

Peter Attwood, Nigel Attwood

Logistics of a Distribution System Peter Attwood, Nigel Attwood

"Logistics of a Distribution System" is a follow-up to the previously published "Planning a Distribution System" and offers a reference source to all the factors affecting the planning, organization and management of a logistics/distribution system. It covers road, air, sea and rail transport both as single and multi-model operations, as well as the movement of hazardous material within the UK and EEC countries. The book is completely up-to-date and covers all the latest development from technology and legislation to computer application and customer handling. Written in a concise and straight-forward style. It is an ideal guide for trainee managers, managers moving into distribution, transport managers seeking to extend the scope of their business and military logistics officers studying civil operations as well as being a suitable textbook for any logistics management course.
