Gorillas (A Portrait of the Animal World) Marcus H. Schneck

An informative series that provides, in a concise format, better understanding of animals and their habitats. Fascinating in its diversity, the natural world comes to life on the pages of these spectacularly illustrated volumes.

Gorillas are one of our nearest relatives in the animal kingdom, yet they are often misunderstood, with an entirely undeserved reputation for being aggressive. With spectacular photographs and informative text, this volume provides a new understanding of these extraordinary creatures.
