Humanity at the Crossroads: Technological Progress, Spiritual Evolution, and the Dawn of the Nuclear Age Garth J. Hallett

Humanity now stands at a crossroads between a world of unimaginable wonders and one of unprecedented terrors. The choices we make now will determine not only the shape of our future, but whether there will be, for us as a species, a future at all. But, if we *are* at such a crossroads, are we even properly aware of it? Governed by instincts rooted in the past, are we prepared to see what we need to see, to do what we need to do? As technology evolves, so must we; but how and in what direction? Are we unavoidably fated to trade liberty for security in ridding the world of terror and war? *Humanity at the Crossroads* attempts to answer all of these critical questions, while opening the dialogue for further debate. It arrives, in the process, at the startling conclusion that the very technology which threatens to destroy us, not merely its more favorable offshoots, is itself the catalyst for that better world we may yet hope to inhabit.
