Organic Contaminants in Riverine and Groundwater Systems: Aspects of the Anthropogenic Contribution

Jan Schwarzbauer

Organic Contaminants in Riverine and Groundwater Systems: Aspects of the Anthropogenic Contribution Jan Schwarzbauer

This book reviews a selection of organic-geochemical investigations, dealing with the characterization and environmental behaviour of organic contaminations of German river and groundwater systems. Topics include comprehensive non-target screening as well as isotope analysis of contaminants in water and sediments, detailed characterisation of bound residues, recording riverine pollution histories and an extensive application of the anthropogenic marker approach.
