Green Streetscape Design with Stormwater Management Freek Loos, Martine van Vliet

- The first book about stormwater management utilized in urban streetscape design in China
- All the selected design cases are presented with rich design descriptions, plan drawings and beautiful photos

As people witness the effects of climate change - storms of greater frequency and severity - stormwater management in green streetscape design provides an added safeguard that can help mitigate flash flooding during these events. Green street design helps manage stormwater runoff to minimize the amount of pollutants that reach the waterways during rain storms. It also increases the safety and walkability of streets and beautify the city.

This book provides a toolkit and reference of design projects for city agencies, contractors, and landscape designers to help them achieve their goals. Offering a detailed green streetscape design guideline with accompanying stormwater management methods, the book is augmented with selected design cases, presented with rich narratives, detailed plans and drawings, and beautiful photography. This book is an informative guide for practitioners to create an attractive, efficient and sustainable urban streetscape, while managing polluted stormwater and achieving a cleaner environment.

From reader reviews:

Robert Landers:

Why don't make it to be your habit? Right now, try to prepare your time to do the important work, like looking for your favorite publication and reading a guide. Beside you can solve your condition; you can add your knowledge by the guide entitled Green Streetscape Design with Stormwater Management. Try to make the book Green Streetscape Design with Stormwater Management as your close friend. It means that it can get your friend when you sense alone and beside that of course make you smarter than in the past. Yeah, it is very fortunate in your case. The book makes you much more confidence because you can know anything by the book. So , let me make new experience and also knowledge with this book.

Peter White:

What do you think of book? It is just for students since they are still students or it for all people in the world, what the best subject for that? Just you can be answered for that problem above. Every person has distinct personality and hobby for every other. Don't to be forced someone or something that they don't need do that. You must know how great along with important the book Green Streetscape Design with Stormwater Management. All type of book are you able to see on many resources. You can look for the internet methods or other social media.

Dennis Stclair:

Reading can called thoughts hangout, why? Because while you are reading a book especially book entitled Green Streetscape Design with Stormwater Management your brain will drift away trough every dimension, wandering in each aspect that maybe not known for but surely can become your mind friends. Imaging every single word written in a publication then become one form conclusion and explanation this maybe you never get prior to. The Green Streetscape Design with Stormwater Management giving you a different experience more than blown away your brain but also giving you useful information for your better life on this era. So now let us explain to you the relaxing pattern the following is your body and mind is going to be pleased when you are finished looking at it, like winning a casino game. Do you want to try this extraordinary investing spare time activity?

Margaret Babin:

This Green Streetscape Design with Stormwater Management is great guide for you because the content and that is full of information for you who all always deal with world and possess to make decision every minute. This specific book reveal it information accurately using great arrange word or we can claim no rambling sentences inside it. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but hard core information with splendid delivering sentences. Having Green Streetscape Design with Stormwater Management in your hand like obtaining the world in your arm, facts in it is not ridiculous a single. We can say that no reserve that offer you world inside ten or

fifteen small right but this reserve already do that. So , it is good reading book. Hi Mr. and Mrs. occupied do you still doubt in which?
