Thinning Films and Tribological Interfaces: Proceedings of the 26th Leeds-Lyon Symposium (Tribology and Interface Engineering) D. Dowson, M. Priest, C. M. Taylor, P. Ehret, T.H.C. Childs, G. Dalmaz, A A Lubrecht, Y. Berthier, L. Flamand, J.M. Georges

This collection of fully peer-reviewed papers were presented at the 26th Leeds-Lyon Tribology Symposium which was held in Leeds, UK, 14-17 September, 1999.

The Leeds-Lyon Symposia on Tribology were launched in 1974, and the large number of references to original work published in the Proceedings over many years confirms the quality of the published papers. It also indicates that the volumes have served their purpose and become a recognised feature of the tribological literature.

This year's title is 'Thinning Films and Tribological Interfaces', and the papers cover practical applications of tribological solutions in a wide range of situations.

The evolution of a full peer review process has been evident for a number of years. An important feature of the Leeds-Lyon Symposia is the presentation of current research findings. This remains an essential feature of the meetings, but for the 26th Symposium authors were invited to submit their papers for review a few weeks in advance of the Symposium. This provided an opportunity to discuss recommendations for modifications with the authors.

From reader reviews:

Hilda Baker:

Playing with family in a very park, coming to see the marine world or hanging out with pals is thing that usually you might have done when you have spare time, after that why you don't try factor that really opposite from that. Just one activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love Thinning Films and Tribological Interfaces: Proceedings of the 26th Leeds-Lyon Symposium (Tribology and Interface Engineering), you are able to enjoy both. It is great combination right, you still wish to miss it? What kind of hang-out type is it? Oh seriously its mind hangout fellas. What? Still don't get it, oh come on its identified as reading friends.

Robert Johnson:

The book untitled Thinning Films and Tribological Interfaces: Proceedings of the 26th Leeds-Lyon Symposium (Tribology and Interface Engineering) contain a lot of information on it. The writer explains her idea with easy approach. The language is very straightforward all the people, so do certainly not worry, you can easy to read this. The book was published by famous author. The author gives you in the new era of literary works. You can read this book because you can keep reading your smart phone, or product, so you can read the book in anywhere and anytime. In a situation you wish to purchase the e-book, you can start their official web-site and order it. Have a nice read.

Carlos Pollard:

Do you like reading a reserve? Confuse to looking for your chosen book? Or your book has been rare? Why so many issue for the book? But virtually any people feel that they enjoy regarding reading. Some people likes reading through, not only science book but also novel and Thinning Films and Tribological Interfaces: Proceedings of the 26th Leeds-Lyon Symposium (Tribology and Interface Engineering) or maybe others sources were given information for you. After you know how the great a book, you feel want to read more and more. Science guide was created for teacher as well as students especially. Those textbooks are helping them to add their knowledge. In some other case, beside science publication, any other book likes Thinning Films and Tribological Interfaces: Proceedings of the 26th Leeds-Lyon Symposium (Tribology and Interface Engineering) to make your spare time much more colorful. Many types of book like here.

Walter Blankenship:

Reading a reserve make you to get more knowledge from the jawhorse. You can take knowledge and information originating from a book. Book is created or printed or descriptive from each source this filled update of news. In this modern era like now, many ways to get information are available for anyone. From media social just like newspaper, magazines, science book, encyclopedia, reference book, new and comic.

You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just looking for the Thinning Films and Tribological Interfaces: Proceedings of the 26th Leeds-Lyon Symposium (Tribology and Interface Engineering) when you required it?
