Written by practicing surgeons, this full-color atlas is a comprehensive guide to the keyhole world of laparoscopic surgery. The book provides a working knowledge of surgical anatomy as seen from the laparoscopic perspective. Organized regionally, this atlas covers surgical exposure, topographic anatomy, and specific surgical procedures. It contains 220 full-color photographs paired with labeled line drawings indicating specific anatomic points and landmarks. The chapter on the inguinal region includes photographs of cadaver dissections showing crucial anatomic structures
