Culture and Communication Within HUMINT and Military Intelligence Jim Schnell

This book describes the nexus of culture and communication within HUMINT (Human Source Collection Intelligence) and general military intelligence contexts. The author draws from a wide range of applications involving diplomatic and combat scenarios that illustrate the complexities recognized in such contexts.

Schnell's background as theorist (Ph.D., Ohio University and scholarly background in National Security & Intelligence) and practitioner (HUMINT/intelligence officer within the diplomatic corps and Special Operations Command) give him license to construct a vivid understanding of primary variables associated with the interplay of communication and culture.
