## **Faction Paradox: The Book of the War** Lawrence Miles

A stand-alone novel in alphabetical order...Before the Faction Paradox series from Image Comics, there was the War in Heaven-a wide-ranging conflict between the immovable Great Houses, the renegade Faction Paradox and other major powers. All of them possess time-travel technology-and all of them are trying to usurp various points in history, thus erasing thier opponents from the timestream. Marking the first five decades of the cosmic-spanning conflict, The Book of the War is an A to Z self-contained complete guide to the Spiral Politic, from the beginning of recorded time to the fall of humanity. This book chronicles the rise of the Faction as a renegade House, the creation of a living timeship named Compassion, some brutal battles across all of time and space and more. All in all, The Book of the War serves as the No. 1 entry point into the Faction Paradox comics and novel lines.
