## **Cuba: Between Reform and Revolution (Latin American Histories)** Louis A. Pérez

Spanning the history of the island from pre-Columbian times to the present, this highly acclaimed survey examines Cuba's political and economic development within the context of its international relations and continuing struggle for self-determination. The dualism that emerged in Cuban ideology--between liberal constructs of patria and radical formulations of nationality--is fully investigated as a source of both national tension and competing notions of liberty, equality, and justice. Pérez integrates local and provincial developments with issues of class, race, and gender to give readers a full and fascinating account of Cuba's history, focusing on its struggle for nationality.

This third edition features the latest research on Cuba, including a new chapter on post-Cold War Cuba that covers the years 1995 through 2004. The political chronology has been revised and updated and the extensive bibliography has been both condensed, where necessary, and expanded to highlight the scholarship of the past decade. The book now features photographs throughout and five maps.
