So many books are coming out about the porn industry but not one like this, a true story, an autobiography that are not trying to cash in on her last moments of fame, she never had one though she will tell you in a conversational way in the same street wise and gritty way as the industry is what goes on in today's porn Mecca, San Fernando Valley.

You will find out how much the actors/actress are making as of today, how this on the fringe industry can't really make money unless they bootleg one or two competitors products and what will happen if you get caught with the fingers in the cookie jar.

This book also tells about backstabbing bosses, drugs, booze, extortion, and so much more but last of course the sex. This book is written by an editor that turned her back on the industry. There will be revealed how much it costs to make a DVD from shooting the scene to the actual cost of creating the sleeve and duplication; about the different 'legitimate' filmmakers involved, and where blank videos that use to have content of Disney's movies such as "Mulan" and many others come from.

This is a secretive and many times dangerous industry and this book will give a different and 'sober' look into the industry that so many others have written about when they were under the influence, this one is from an unknown editor that slammed the door in their faces by revealing everything.
